ATTENTION RESTORE USERS THAT ARE ON THYROID HORMONE!

Restore is an amazing product that can help your body to begin to work better, including your thyroid!

PLEASE PAY ATTENTION TO HOW YOU FEEL AFTER DRINKING THE RESTORE FOR A FEW DAYS

After use of the Restore Shake, you may notice that you may need to reduce the amount of thyroid hormone you are taking. If you are taking the Restore Shake and your thyroid hormone, and you begin to get a racing heartbeat, this can mean that you have too much thyroid hormone. You can take less of the Restore Shake by a half scoop, and then ask your doctor to check your hormone levels.

It has been reported many times that your doctor can reduce the amount of thyroid that you are taking. Your body may get to the point where you no longer need any thyroid hormone since your body is now making it which is the goal; getting your body to work correctly and no longer need the dependence of thyroid hormone.

IF YOU ARE NOT TAKING ANY THYROID HORMONE IGNORE THIS
